

# Sage Advice

## For Community Projects

Providing expert consultation, using sustainable methods, with all aspects of vegetable, herb and fruit gardening.

Advice on vegetable & herb garden placement, materials, tools, soils, mulch, compost, planting, watering, weeding, rotation, trellising.

Advice on selection of fruit trees, placement in the landscape, planting, watering, mulching, fertilizing, cold & heat protection, tools, pruning.

Have you been to classes, read books and asked friends about growing vegetables, herbs and fruits; and still need someone to take a look at your site and make specific recommendations and perhaps be there when you build and plant your garden or plant your trees?

Urban Harvest is excited to announce a new program that meets the great demand for these services – in community based projects.

Call Mark at Urban Harvest for consultation scheduling and pricing.
